Gentlemen:

We would like 30 sheets of cardborad as per sample enclosed, cut as follows: 25 sheets cut as per diagram enclosed and 5 sheets cut in 28" lengths 3 cuts to a sheet 5-5/8" wide and 1 cut 5-1/8, in other words 4 cuts to a sheet.

In previous orders we have had to discard a number of cards which were cr ased by clamps to hold the cardboard to the knife. Is it possible to obviate these lines of pressure? Please send bill with stock and oblige.

Truly yours,

CR:JG

P. S. We enclose card illustrating marks of gripper or clamp on knife.
